

Toughmate CF-20 Always-On User Guide

For use with the Panasonic Toughbook CF-20

Introduction

Your Toughmate CF-20 Always-On Case is uniquely designed to increase productivity and provide an enhanced level of protection in both tablet and laptop modes. Enjoy hands free transportation as well as peace of mind that can only come from full-time Toughmate protection.

Features

- 1) Screen Cover Flap
- 2) Nylon D-Rings
- 3) X-Strap
- 4) Steel D-Rings
- 5) TPU Retention Straps
- 6) CF20 Handle Slot
- 7) Velcro Retention
- 8) Elastic Retention Straps

1

Installing Your Toughbook CF-20 in the Case

Remove the clear backing from the Velcro pieces(7) located on the bottom of the interior of the case, carefully align the edges of your device with the edges of the case and firmly press the device down onto the adhesive. Allow the adhesive to cure for 24 hours before attempting to remove the device from the case, this ensures a proper bond will be formed between the device and the Velcro Retention(7).

2

To install the TPU Retention Straps(5), allow the case to full open and then open the device to a flat state, this will allow you to slip the screen portion of the CF-20 under the TPU Straps. Then stretch the Elastic Retention Straps(8) from underneath the keyboard and slide them into place.

3

The CF-20 Always-On Case also allows for use of the CF-20 in Tablet mode. Simply turn the tablet portion of the device around and open the Screen Cover Flap(1) to access the screen.

The Screen Cover Flap(1) can be tucked through the X-Strap(3) on the bottom of the case when the device and case are being used in tablet mode.

Handle Use

The CF-20 Always-On case features a unique dual-zipper design that allows the machine's built-in handle to be a primary method of carry, in addition to the standard shoulder strap and user harness functionality.
