

## ***Toughmate 33 Enhanced Rotating Hand Strap***

## **Introduction**

Your Toughmate 33 Enhanced Rotating Hand Strap is uniquely designed to provide ease in transportation and utilization of your TOUGHBOOK and all of its added features.

## Features

- 1) Silver Nickel D-Rings
- 2) Silver Nickel O-Rings
- 3) Webbing Glides
- 4) Adhesive Velcro

- 5) Hand Strap Base
- 6) Quick Connect Clips
- 7) Bottom Nylon Webbing Straps
- 8) Top Nylon Webbing Straps

**1**

Before installation, make sure your CF-33 is laid face down on a soft, clean, surface. Remove the backing from the Adhesive Velcro(4) on the Hand Strap Base(5). Make sure Nylon Webbing Straps(7+8) are placed near the slots (as seen to the left). Press down firmly on Hand Strap Base(5) and allow the adhesive to cure for 24 hours before use to ensure a strong bond.

**2**

To install the Bottom Nylon Webbing Straps(7), insert the tapered end of the straps into the bottom slots that are built into the CF-33 device. Push the strap through and when the end emerges from the other side of the slot, pull the strap through and then thread it back through the Webbing Glide(3) as shown in the below images.

**3**

Loop the Bottom Nylon Webbing Straps(7) back through the bottom of the Webbing Glides(3). This ensures a tight connection to the device that will support use of accessories.

**4**

To install the Top Nylon Webbing Straps(8), insert the tapered end of the straps into the top slots that are built into the CF-33 device. When the end emerges, pull the strap through and insert one Silver Nickel O-Ring(2) through each Webbing Strap. Thread it back through the Webbing Glide(3) as shown in the below images.

**5**

To finish installation, loop the Top Nylon Webbing Straps(8) back through the bottom of the Webbing Glides(3). This ensures a tight connection to the device that will support use of the included Shoulder Strap.

The Silver Nickel D-Rings(1) and The Silver Nickel O-Rings(2) are designed to allow the attachment of the included Shoulder Strap or optional accessories to provide an enhanced user experience for the CF-33 device.

## Tips for use

1. The included Shoulder Strap can attach to the 2 O-Rings(2).
2. The Rotating Hand Strap can be loosened or tightened to better fit your hand via the Velcro on the inside of the hand cuff.
3. The Quick Connect Clips(6) allow for quick removal of the strap if the user needs to access part of the gadget pack or swap batteries.
4. The TOUGHBOOK CF-33 with Toughmate Rotating Hand Strap is compatible with Gamber Johnson and Havis CF-33 Tablet and Keyboard Docks. To ensure best performance and fitting in Tablet dock, both Top Nylon Webbing Straps(8), triglides and O-Rings(2) must be folded backward to avoid any interference with docking cabinet.

## Warranty

InfoCase products are dynamic, consistently improved and reinvented to bring you the best products on the market. We use only the highest quality materials to meet your mobile technology demands.

InfoCase offers a One Year warranty on defects and workmanship on your Toughmate accessory. This warranty does not cover normal wear and tear and/or damage caused by misuse or accident.
