TOUGHBOOK G2 mPos Integration Kit User Guide

Introduction

The G2 mPos Integration Kit converts the TOUGHBOOK G2 and your mPos device into a mobile payment terminal that delivers an intuitive and efficient workflow experience.

Features

1. Verifone e285
2. mPos Case
3. Rail Piece
4. Screws

Installation

1

First, begin by inserting your mPos device (e285 pictured) into your case (2). Do so by sliding the device up from the bottom shown to the left.

2

Locate and unscrew the 3 device screws circled on the G2.

3

Take the rail piece (2) and align the screw openings.

4

Screw the rail piece (2) to the G2 using the 3 provided screws (4). *Caution:* Overtightening the screws can cause rail piece to crack or break.

5

To install the mPos case (2), simply slide it down the rail piece (3) until the clicks into place. The screen of your mPos device and the G2 screen should be facing the same direction.

Tips for Use

- If needed, your mPos while still in the case can be removed by pulling it up and off of the rail.

- Our User Harness Kit (TBCUSHRN-KIT) can optionally be worn when using this solution.
