- 6) Velcro Attachment*
- 7) User Harness Rings
- 8) Rear Port Opening

*Velcro may cover one of the information labels on your device.

1

Installing Your TB-55 in the Case

With your device closed, and the bottom facing the ceiling, using the provided Velcro Template, adhere the black Loop Velcro to the bottom of the machine, making sure it aligns with the Hook Velcro on the inside of the case. Be sure to allow 24 hours for the adhesive to cure.

2

Open your machine fully and slide the screen up into the TPU screen retention straps (#4).

3

Align the machine base in the center of the case (make sure battery release is visible and press the Velcro together carefully). Stretch the Elastic Retention Straps over all four corners of the machine.

These straps can be easily moved to view the LED status lights

Handle Use

The TB-55 Always-On case features a unique dual-zipper design that allows the machine's built-in handle to be a primary method to carry your TOUGHBOOK 55.

Warranty

InfoCase products are dynamic, consistently improved and reinvented to bring you the best products on the market. We use only the highest quality materials to meet your mobile technology demands.

InfoCase offers a lifetime limited warranty on defects and workmanship on your Toughmate 55 Case. Please visit: <http://www.InfoCase.com/warranty> or call 1-800-248-4844 to obtain more information on the InfoCase warranty.
