# Toughmate™

Rotating Hand Strap for the TOUGHBOOK G2 User Guide

Introduction

Your TOUGHBOOK G2 Rotating Hand Strap is uniquely designed to provide ease in transportation for your G2 device.

Features

1) Silver Nickel D-Rings
2) Nylon Webbing Straps
3) Webbing Glides

4) Adhesive Velcro
5) Hand Strap Base

Before installation, make sure the tablet portion of your TOUGHBOOK G2 is separated from the keyboard and laid face down on a soft surface.

1

Remove the backing from the Adhesive Velcro(4) on the Hand Strap Base(5). Then, align the hand strap so the four straps line up with four slots on the back of the G2 firmly press down. Allow this Velcro to cure for 24 hours before using the hand strap with the device to ensure a strong bond. **Note: When using the approved G2 Keyboard, the hand strap needs to located above the dotted line shown in the image.**

Tough**mate**™

2 To install the straps, insert the tapered end of the Nylon Webbing Strap(2) into the slot that is built into the G2 device. Push the strap through and when the end emerges from the other side of the slit pull the strap through and then thread it back through the Webbing Glide(3) as shown in the below image.

3 Next, loop the Nylon Webbing Strap(2) back through the bottom of the Webbing Glides(3).

4 To finish installation, loop the Nylon Webbing Strap(2) back through the top of the Webbing Glides(3). **Note: to ensure correct installation that supports the Shoulder Strap, this third loop is needed for a tight connection to the device.**

Additional Information

1. The included Shoulder Strap can be attached to any of the 4 D-Rings to fit your specific need or use case.
2. By loosening the Nylon Webbing Straps you can easily access and remove the battery cover from your device or attach a gadget pack.
3. The Rotating Hand Strap can be loosened or tightened to better fit your hand via the Velcro on the inside of the hand cuff.
4. **Note: The G2 Rotating Hand Strap is not compatiable with the Havis Docking Station DS-PAN-721.**
