MSRP: \$79.99

KC50 Kiosk Computer 22-inch
PART NUMBER: FM-RC-KC50X22
MSRP: \$99.99

Simple, Tough Protection

The Rebound Bumper Frame for Zebra KC50 Kiosk Computers is a durable silicone frame engineered to absorb bumps and impacts—ideal for kiosks in commercial settings and public-facing installations. Designed specifically to accommodate the 15" and 22" KC50 Kiosks, it offers a seamless fit that preserves access to mounting hardware, is easy to install, and suitable to environments that require frequent cleaning.

Key Features

- Protective silicone frame defends the device from bumps and impacts
- Silicone material is resilient to industrial cleansers, ideal for sanitary and food service environments
- Open back design does not interfere with mounting hardware and cable connections
- Combine with optional tempered glass screen protector (INF-SG-KC50X15 or INF-SG-KC50X22)
- Full access to all device I/O ports, buttons and features
- Quick and easy installation
