

Rugged Flex Case for Dell Chromebook 11 Laptop

PART NUMBER: AO-RF-DCB11
MSRP: \$29.95

Smart Protection Built for K-12 Budgets

School technology teams are under constant pressure to protect devices, control repair costs, and stretch limited budgets. The Rugged Flex Case was designed specifically for that reality. It delivers dependable, classroom-ready protection in a streamlined, cost conscious design without sacrificing durability or usability. By combining a clear polycarbonate bottom shell with a silicone top shell, the Rugged Flex is a lightweight yet resilient case that absorbs impact where it matters most, while maintaining the fit and function schools expect.

Key Features

- Exceeds MIL-STD-810H (military standard) drop testing by SGS at 5 ft.
- Extends longevity of hinges with perfect alignment and lightweight design
- Slim design fits in most charging carts, cabinets, and lockers
- Food-grade silicone holds up to regular cleaning with heavy duty sanitizers
- Enhanced grip with textured edges on silicone top shell
- Tab on the top shell encourages opening device from the middle, preventing screen bezel damage
- Easy keyboard replacement with access to release screw in the bottom shell
