InfoCare360

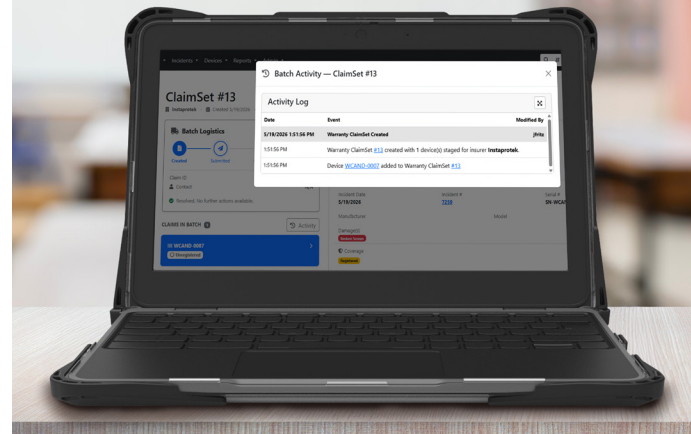

Manage

Complete Device Lifecycle Visibility

Manage Every Device Lifecycle Decision from One Centralized View

As device fleets age, warranties expire, and repair volume increases, districts need more than disconnected systems and spreadsheets. InfoCare360 helps schools simplify operations, improve visibility, reduce downtime, and maximize technology investments across the entire device lifecycle.

Your District's Single Source of Truth

Bring Together Asset Tracking, Repair Co-ordination, Alerts, Reporting, and Lifecycle Visibility Into One Centralized Workflow

TRACK

- Devices, users & locations
- Ownership history
- Check-in/check-out
- Remaining repair funds

CO-ORDINATE

- Incidents, claims & repairs
- Warranty workflows
- Parts inventory
- Direct SIS integration

COMMUNICATE

- Automated pulse alerts
- Student/staff notifications
- Real-time updates
- Support & development

REPORT

- Dashboards & analytics
- Repair trends
- Lifecycle visibility
- All in one place!

Essentials vs. Full Enterprise

Flexible Options to Support Your District's Technology Management Needs *talk to a Rep for a full list of program features.*
